

A dynamic background image showing a splash of clear water against a light blue sky. The water is captured in mid-air, creating a sense of movement and freshness. The splash is centered and spreads outwards, with individual droplets visible. The overall color palette is cool and clean, dominated by blues and whites.

The Certificate of Registration

one certificate providing all the customary information

We subscribe to The National Register of Ladderless Window Cleaners and have received their Certificate of Registration.

Having your window cleaning carried out by someone who has received this certificate gives you the confidence and assurance that you are receiving a service from a reputable company. You should check that any window cleaning company you use in the future also subscribes.

The certificate of registration supplied by LaddersFree is awarded to companies that meet certain criteria for window cleaning services using water fed poles. The certificate has been produced to help reduce 'red tape' for customers and replaces a number of requirements to obtain customary documentation before awarding a contract.

This leaflet tells you about the criteria we have met to be awarded the certificate of registration.

The criteria

- We have supplied LaddersFree with a copy of our public liability insurance and employers liability insurance (where applicable). The cover is sufficient for the work to be carried at your establishment(s).
- We have supplied LaddersFree with two Commercial referees therefore giving you extra confidence in the standard of service we deliver.
- We have provided LaddersFree information on our health and safety procedures and internal reporting procedures.
- We have completed the LaddersFree competency report

How you can find out more
